

KNOCK ON WOOD

RUN RATING: 4+

EQUIPMENT: Front AND Rear lockers required. Hard lockers only (Detroit, Spool, Lock Rite, etc.) No limited slips allowed. Body damage and or equipment damage is probable.

DESCRIPTION:

We will start with a short rocky hill climb to verify lockers and low range are operational. We will then drop into the Mine Trail. If you had trouble with the hill climb, you will want to bypass the short rock garden at the bottom of the canyon. Those that had trouble can join one of two red runs that will be following us into the Mine trail and continue their day. Those that are left will proceed to the Knock on Wood canyon for a challenging rock crawl up a tight twisty canyon. After lunch, we will run parts of Broken Arrow before we head over to the Sand Dam area. We will finish the day with a few runs at the dam and then head back to camp.
