BLACK CAT

EAST TO WEST (SORTA)

TRAIL RATING:

EQUIPMENT:

Suspension lift, 1 hard locker
REQUIRED, 2 are strongly
suggested, minimum 32" tires
REQUIRED, Winch may come in
handy!

DESCRIPTION:

Black Cat offers deep sand, unforgiving rocks, tight spots, hill climbs, three-point turns and steep declines. Even though one locker is required for this run, two lockers will greatly reduce your stress level (and your repair bill). If you are a novice, you will find this trail extremely challenging. At the end of the day you will feel a sense of accomplishment not often experienced on lesser trails. Although **Black Cat** can be completed without damage, don't be surprised if you pick up a ding or two. So give **Black Cat** a try, you won't be disappointed!
