

# LOST DUTCHMAN

**TRAIL RATING:** 3

**EQUIPMENT:** Anti-sway bar disconnected.  
Front & rear tow attachments.  
Suspension lift, 1 hard locker suggested, Minimum 31" tires strongly suggested.

## **DESCRIPTION:**

Lost Dutchman is a moderate and scenic run suitable for full sized vehicles. This is the only run that ventures to the west side of the mountain. We'll start off at Sand Canyon. Next we'll head towards the back of the mountain and play on hard packed dirt and rocks. If you are a novice, you will find this trail challenging and fun. Although damage can occur on any trail, with a little care you should have minimal trouble on this run. We'll finish the run over at Sand Dam, where you can continue to play in the sand.
