

Voodoo

TRAIL RATING: 4

EQUIPMENT: Suspension lift, 1 hard locker
REQUIRED, 2 suggested,
minimum 32" tires
REQUIRED, Winch
suggested

DESCRIPTION:

The trail starts off in soft sand as we work our way up to the east side of Sand Dam. After crossing below the dam we will make our way to Towstrap Hill. The approach to Towstrap Hill is a winding and narrow fun trail. Once on top, we will touch on the Black Cat Trail but quickly turn off to climb even higher. After we reach the top we start a loose rock decent into a canyon. Once down, we will loop around and climb up out of the canyon to the Black Cat Trail once again. After a few hundred feet we will drop back down on to Towstrap Hill and slide and wind our way to the base of Sand Dam.
